## ACADEMIC PROJECTS

---

### TMDB Movie App

[\(GitHub Link\)](#)

*Description:* A movie web application that displays trending, top-rated, and upcoming movies and TV shows using TMDB API. Users can view trailers, details, and add movies to their favorites list.

- Built using React.js, TMDB API, and Bootstrap.
- Implemented dynamic routing using React Router.
- Designed a fully responsive user interface.

### Book Store Application

[\(GitHub Link\)](#)

*Description:* A dashboard-based book management system where users can log in, view available books, and add or sell books dynamically.

- Developed in React.js using Bootstrap, Fetch API, Login API, and Listing API.
- Integrated secure login authentication.
- Used reusable components for displaying book details.
